

Getting Started with ABA Therapy

A supportive path to care

1

Getting to Know You

We gather important details about your child, verify your insurance benefits, and explain any financial responsibility to ensure a smooth start.

2

Caregiver Orientation

Meet with our team to learn how ABA services will support your child, fill out paperwork, ask questions, and feel confident about next steps.

3

In-Person Assessment

A BCBA meets with your child to assess strengths, identify needs, and define meaningful goals.

4

Individualized Care Plan

Your BCBA creates an individualized treatment plan based on your child's needs and your family's priorities, including recommended hours and goals (shared for your review and signature).

5

Authorization & Services Begin

We submit your plan to insurance for authorization, thoughtfully match your family with an RBT(s), and begin services.

Empowering children from within
